

Epiglottis - RF

Epiglottis - RF, 0,5x

- Epiglottis (elastická chrupavka / elastic cartilage):

Epiglottis - RF, 2x

- Epiglottis (elastická chrupavka / elastic cartilage):

- 1) TM - tunica mucosa
- a) ED - vrstevnatý dlaždicový epitel nerohouvějící (linguální strana) / stratified squamous non-keratinized epithelium (lingual side)
- b) LP - lamina propria
- 2) P - perichondrium
- 3) ECH - elastická chrupavka

Epiglottis - RF, 10x

- Epiglottis (elastická chrupavka / elastic cartilage):
- 1) P - perichondrium
- 2) ECH - elastická chrupavka
- 3) IGS - luka s isogenetickou skupinou / lacuna with isogenous group
- 4) CHC - chondrocyt v laku / chondrocyte in lacuna
- 5) EVM - elastická vlákna v matrix / elastic fibers in matrix

Epiglottis - RF, 20x

- **Epiglottis (elastická chrupavka / elastic cartilage):**
- 1) **IGS** - lakuna s isogenetickou skupinou / lacuna with isogenous group
- 2) **CHC** - chondrocyt v lakuně / chondrocyte in lacuna
- 3) **EVM** - elastická vlákna v matrix / elastic fibers in matrix
- 4) **EV** - elastická vlákna / elastic fibers
