<div> <div></div> <div>Author</div> </div>	NEUROtiker
<div> <div></div> <div>SVG development</div> </div>	<div> <div>W3C The SVG code is valid (https://validator.w3.org/check?uri=https%3A%2F%2Fcommons.wikimedia.org%2Fwiki%2FSpecial%3AFilepath%2FAmylopektin_Haworth.svg&doctype=Inlin)</div> <div>AI This structural formula was created with Adobe Illustrator.</div> <div> <div></div> <div>The file size of this SVG structural formula may be abnormally large because most or all of its text has been converted to paths rather than using the more conventional <t element. Unless rendering the text of the SVG file produces an image with text that is incurably unreadable due to technical limitations, it is highly recommended to chang paths back to text. Doing so will ease the process of localizing this image to other languages and is likely to reduce the file size in a significant scale. Other SVGs containing based text can be found at Category:Path text SVG. For more information, see SVG: Fonts and Preparing images for upload: Text.</div> </div> <div> <div>Templates: Path text SVG/118n</div> <div>E:</div> </div> </div>

This image of a simple **structural formula** is **ineligible for copyright** and therefore in the **public domain**, because it consists entirely of information that is common property and contains no original authorship.
