CardioNetworks Source

21.jpg (<http://en.ecgpedia.org/wiki/File:21.jpg>)

Attribution information, such as the author's name, e-mail, website, or signature, that was once visible in the image itself has been **moved into the image metadata and/or image description page**. This makes the image easier to reuse and more language-neutral, and makes the text easier to process and search for. Commons discourages placing visible author information in images.
